Rep. Isaac to Address Water Concerns at Town Hall Meeting

AUSTIN, TX – State Representative Jason Isaac (R-Dripping Springs) will host a town hall to address water concerns at 6:30 p.m. on Tuesday, February 10 in the Johnson Hall at the Wimberley Community Center.

Rep. Isaac said, "Many questions and concerns have been brought to my attention regarding the amount of water being pumped from the Trinity aquifer by a Houston-based company, Electro Purification. I am hosting a town hall meeting as an unbiased approach where people can come to learn about the project and voice their concerns. I'm hopeful all of the parties involved will be present to discuss their plans."

Buda City Manager Kenneth Williams, representatives with Anthem, and Electro Purification have been invited to present their plans. As of this morning, the Buda City Manager and Anthem have confirmed their attendance. Senator Campbell's office will be in attendance as well.

"The amount of water that Electro Purification plans to pump is of great concern. We must learn what impact this will have on our groundwater supply that is critical to us all in this environmentally sensitive area." Rep. Isaac continued, "I am currently working on legislative solutions that will ensure protection of our aquifers."

The Wimberley Community Center is located at 14068 Ranch Road 12, Wimberley, TX 78676.
